**Average attendance:**

Sunday Morning 9

## Ministry Updates

We are still searching for a meeting place. The new town center we have been waiting on for literally 3 years now is still approximately 6 months from completion. We are currently averaging 9 but I fully expect that number to grow once summer is over and school starts back. In the short term, we are going to do a slight remodel to our home in hopes of adding room for around 4-6 more people. We do have one family of 5 we have become close to the last year say they would like to start attending. Through us reaching out and ministering to them and their daughter (my daughter's friend I have asked prayer in the past.) they have become close and dear friends of ours.

Football season has started back! I am excited about the opportunity God has given me to get to know this year's group of freshman. I look forward to coaching them and building relationships where I can mentor and pour into them not only football but a life with Jesus. Also, that means coaches Bible study is back! I thoroughly enjoy this 1 hour per week where we meet and discuss life and how to include living our faith out in everyday life and in front of the young men God has entrusted to our care.

As I mentioned last month, the Ledbetters will be leaving for their new field of Labor in Topeka, KS. They are scheduled to load up the UHaul on the 25<sup>th</sup> of this month. We will definitely miss them but we know God has great things in store for them in KS.

## Prayer requests

COVID has hit us AGAIN. Earlier this month Jackie's brother and family came for a visit. They have been trying for several years to come but many circumstances have prohibited them from doing so. They were originally staying a week but their 7 year old son John Luke, who has autism came down sick and they went to an urgent care here and he was diagnosed with COVID. They were only here 2 days and packed up and left for Louisiana the same morning. They drove 22 hours home with a sick son only to all come down with it a few days later. We had all went to the zoo the day before and Dalton was carrying John Luke around on his shoulders. Well, the next day Dalton started feeling sick! He went and was also tested positive. We have all been in quarantine for 8 days now. So far, Dalton is the only one with symptoms, but he is slowly feeling better each day.

Dalton's friend Zalix has moved in with us until his mother is released from Jail. We are hopeful she will be released in October. Please pray for his situation! Just in the past month, he has been evicted from his apartment and had his car towed and impounded while he was away in Indiana visiting his sisters. Dealing with this has been compounded by the fact there are so many restrictions concerning visiting his mother when he needs documentation or legal matters signed.

For the past couple of months, I have been having severe migraines. I went to the DR. and he ordered a CT scan. The result came back, and I have a cyst (not a tumor!) on my brain the size of a grape. I have an appt with a neurologist at the end of the month to discuss treatment.

Our next-door neighbor tore his ACL, MCL and meniscus a few weeks ago and has been off work ever since. They have 2 kids under 5 and his wife is not working. He is scheduled for surgery this week. We have been taking groceries and meals to them a couple of times a week and are starting to develop a good relationship with them. The love talking with me about God and the Bible! I do believe from their testimony they are saved but they are not attending church anywhere.
